PROFESSIONAL SUMMARY

Highly skilled Backend API Developer with expertise in designing scalable backend architectures, REST APIs, real-time systems, authentication services, microservices, and enterprise-grade applications using Node.js ecosystem technologies. Experienced in building production-ready backend systems for e-commerce, fintech, logistics, SaaS, and communication platforms.

TECHNICAL SKILLS

Category	Technologies
Backend	Node.js, Express.js, NestJS, TypeScript, REST APIs, GraphQL
Databases	MongoDB, MySQL, PostgreSQL, Redis
Authentication	JWT, OAuth2, RBAC, OTP, 2FA
Real-Time	Socket.IO, WebRTC, WebSockets
DevOps	Docker, Nginx, PM2, CI/CD, Linux
Tools	GitHub, Postman, Swagger, Firebase, Cloudinary

PROFESSIONAL EXPERIENCE

Senior Backend API Developer

ABC Tech Solutions | Jan 2024 – Present

- Developed scalable RESTful APIs and enterprise backend systems using Node.js and TypeScript.
- Implemented secure authentication systems including JWT, OTP, refresh tokens, and RBAC.
- Built real-time chat and notification systems using Socket.IO and Redis.
- Optimized MongoDB performance with indexing, aggregation pipelines, and Redis caching.
- Integrated third-party services such as Stripe, Razorpay, Firebase, and Cloudinary.
- Managed Docker-based deployments and scalable backend infrastructure.

ADVANCED BACKEND PROJECTS

Enterprise Multi-Vendor E-Commerce Backend

Built scalable APIs for products, orders, payments, inventory, coupons, and admin analytics with Redis caching and JWT authentication.

Restaurant Management & Food Delivery System

Developed real-time food ordering and delivery tracking backend with Socket.IO, GeoLocation APIs, and secure payment workflows.

Real-Time Chat & Video Calling Platform

Implemented chat, WebRTC signaling server, online presence, file sharing, and Redis-powered socket scaling.

FinTech Wallet & Payment Backend

Created secure wallet transactions, fraud detection, escrow handling, OTP-based payment verification, and audit logging systems.

SaaS Authentication & User Management System

Built enterprise-grade authentication APIs with role permissions, session management, device tracking, and token blacklisting.

Logistics & Delivery Tracking System

Implemented live GPS tracking, delivery route management, real-time status updates, and driver earnings APIs.

AI-Based Support Ticket Backend

Developed AI-powered ticket categorization and smart support management APIs with analytics dashboards.

EDUCATION

Bachelor of Computer Applications (BCA)
Gujarat University | 2021 – 2024

CERTIFICATIONS

- Advanced Node.js Backend Development
- MongoDB Developer Certification
- REST API & Microservices Architecture
- Docker & DevOps Fundamentals

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
