

PAYAL YADAV

Full Stack Developer

☎ +91 7228832443 ✉ itme.payalyadav@gmail.com 🌐 LinkedIn 🐙 GitHub 📍 Vapi, Gujarat, india

PROFESSIONAL SUMMARY

Backend / Full Stack Developer with experience in building scalable REST APIs using Python, Django REST Framework, and Node.js. Skilled in designing authentication systems, database architectures, and API-driven applications. Experienced with React.js, PostgreSQL, Docker, and modern development workflows including Git, CI/CD, and API documentation using Swagger/OpenAPI.

EDUCATION

Chandigarh University

Master of Computer Application

Aug 2023 - Aug 2025

CGPA : 8.0/10

Shrinathji College Daman

Bachelor of Computer Applications

Aug 2021 - Aug 2023

CGPA : 8.4/10

Government Polytechnic College, Daman

Diploma in Information Technology

Jul 2018 - Jul 2021

CGPA : 9.7/10

PROJECT EXPERIENCE

Full Stack Developer – FreeAPI Hub | 🌐 Website 🌀 Swagger 🐙 Github

Full Stack Developer

- **Developed a developer-focused API platform** using **React.js, TypeScript, and Tailwind CSS**, offering a modern interface to explore and test APIs.
- **Built a scalable RESTful API ecosystem** with **120+ endpoints** across authentication, chat, e-commerce, and social media modules.
- **Implemented a secure authentication system** with **JWT, refresh tokens, email verification, password reset, and Two-Factor Authentication (2FA)**.
- **Designed modular backend APIs** with **OpenAPI/Swagger documentation**, enabling standardized API structure and enhancing developer experience.
- **Developed an interactive API playground** for real-time API testing with structured request/response schemas, including features like cart, orders, payments, and product management.
- Documented **120+ RESTful API endpoints** across 6 backend modules, improving developer productivity and API usability.

Tech Stack : Python, Django REST Framework, React.js, TypeScript, Tailwind CSS, RESTful APIs, PostgreSQL, Docker, Git, Railway, Vercel

SKILLS

Programming Languages : Python, JavaScript, TypeScript, C++

Backend : Django REST Framework, Node.js, Express.js, REST API Development

Frontend : React.js, Tailwind CSS

Databases : PostgreSQL, MongoDB, MySQL

DevOps & Tools : Docker, Git, GitHub, Postman, Railway, Vercel

API Documentation : Swagger, OpenAPI
